PARKERSBPRG, June 27 .- Following is the crop and weather conditions for West Virginia for the week ending

Monday, June 27.

Clear weather with sunshine above normal prevailed generally throughout the week. Local rains fell over the state on the 19th, 20th, 21st, 23d, 25th and 26th. Cool night temperature pre-

state on the 19th, 20th, 19th, 23th, 23th, 23th and 28th. Cool night temperature prevailed until the 25th, being especially cool on the 22d and 23d inst., with light frosts reported at a few scattered points on those dates.

The weather conditions were very favorable for the progress of farm work, but unfavorable during the first half of the week, toward the proper growth and development of corn and potators, owing to the cold nights and lack of sufficient rainfails. Wheat harvesting was pushed rapidly over all counties except the most northern, and the grain was secured under most favorable conditions. Some damage from scab, ity and storms was reported. Oats continue to do well and will soon be ready to cut; in some localities they lock poorly and have suffered from lack of moisture.

Rye is being harvested over some, and filling out in other counties, and is in good condition.

Clover harvest is in progress with goof results reported.

Clover harvest is in progress with good results reported.

dows and pastures are in good condition; new meadows are especially doing web; some harvesting is in progress. Corn growth was greatly retarded in localities by the cool nights, but is generally in good condition; it is being "laid by" over many counties, and receiving third cultivation in others; it well worked and very promising. Millet and buckwheat are doing well; plowing for buckwheat still progressing. Potatoes are doing finely and matur-ing; some being marketed. In locali-ties the arrly potatoes suffered from the weather conditions and with not give as good results as anticipated. Gardens are improving, and look well.

Apples and peaches continue to drop it; cherries are being picked and are bundant. Cabell—Wheat about harvested; corn

is doing well; oats short; grass light; potatoes maturing all right; harvest time all around.

Upshur — Corn making a rapid growth; oats heading out short; wheat

eing harvested; grapes very promis-ng; cherries plentiful. ing; cherries pientiful.

Gilmer-Wheat about harvested; corn being laid by and looks well; carly po-

tatoes being marketed; apples still falling off.

Lewis-Wheat being harvested; corn being worked third time; meadows gaining some; gardens in only medium

condition; oats and potatoes in fair con-

dition.

Jackson—Wheat being harvested;
most of the corn well worked and growing nice; other crops doing well.

Mason—Wheat about harvested in good condition; oats and potatoes injured by drouth; showers failing only in places

laces. Ritchie-Wheat being harvested, unusually good; corn about laid by; mead-ows and potatoes in good condition; oats doing well.

extend the blockade to other southern ports

Now, therefore, I, William McKinley, President of the United States, do hereby electare and proclaim that, in addition to the blockade of the ports specified in my proclamation of April 22, 1898, the United States of America has instituted and will maintain an effective blockade of all of the ports on the south coast of Cuba from Cape Frances to ape Cuez inclusive, and also of the port of San Juan in the Island of Porto Rico.

Neutral vessels lying in any of the ports to which the blockade is by the present proclamation extended, will be allowed thirty days to issue therefrom with eargo.

WILLIAM McKINLEY, President of the United States

President. Atmerica.
June 27, 1898.
By the President. J. B. MOORE,
Acting Secretary of State.

Acting Secretary of State.

WASHINGTON, June 28.—By proclamation to-day, the President gave notice of the intention of the government to assume the formidable task of blockading about 500 miles of Cuban coast line in addition to the section already blockaded. This increases the extent of the blockade fully four fold, it having been confined heretofore to a stretch of a little more than 100 miles on the north and the single port of Clenfuepos on the south coast of the Island. The demands upon the navy in the way of ships to patrol the coast, will not be nearly so heavy in proportion to the territory to be covered as in the case of the initial blockade for the reason that the new blockaded coast line lies entirely within the great. Bight on the south Cuban coast, in which the water is generally very shallow and, the ports are few in which a vessel of any draft could enter. The most important of these ports are Manzanillo, Trinidad and Tunis.
West of Trinidad is Clenfuegos, which is already blockaded effectively. From that point weetward for nearly 140 miles there is no point to be blockaded miles there is no point to be blockaded miles there is no point to be blockaded miles there is no point to be blockaded.

Manzanillo, Trinidad and Tunis,
West of Trinidad is Cientucgos, which
is already blockaded effectively. From
that point weetward for nearly 140
miles there is no point to be blockaded
until Batabano is reached. This port is
distant only about forty miles from Havana by rall and is believed to have
been the principal source of food suppiles for the Spanish capital. For 150
miles west of this, clear over to Cape
Plunces, the western edge of the blockadd territory, there are no ports for
dev vessels of any considerable draft,
and even if there were the country in
the interior. Pinar del Rio, is in the
hands of the insurgents and supplies
could not be sent through to Havana.
The jurpose of extending the blockade
westward to Cape Frances, was to command the channel between the west side
of the fele of Pines and Cape Frances,
and thus render much easier the task
of the blockading of vessels.

lew gaims. The market was very narrow and professional, stocks which were strong yesterday being sold to realize to-day. Sugar, People's Gas, Pullman, Consolidated Gas, Tobucco and Brooklin Transit, and in a slight degree Manhattan, all enjoyed their periods of strength. The grangers at one time stiffened up to about last night's close on strength in Rock Island due to inside support and in part to Burlington's favorable May statement, showing an increase in gross of \$745,536, and in the surplus after charges of \$202,595. But the suspension for the present of the grain movement and the knowledge that the current earnings of the grangers are failing below last year's average brought realizing and fractional deckines. Union Pacific preferred was quite a marked sufferer from the reports of rate cutting in trans-continental passenger business. The railroad list was very much neglected for the most part, the demand for stocks having apparently died away entirely in spite of many favoring conditions of business and the continued case in money, which seems to show no effect whatever from any demand to meet July obligations or to take up the government loan. The very light demand for stocks is not accompanied by any pressure to sell large amounts, and the result is an almost stagnant market, in which there is nothing to indicate any change. The new tax on issues, transfers which there is nothing to indicate any change. The new tax on issues, transfers and sales of stock certificates contin-ues to absorb a large amount of attention in Wall street, where the opinion prevails that unless its literal provisions can be successfully combatted in the courts or legally evaded, they will largely curtail professional speculation and operations by room traders for a quick return in the price of stocks.

Breadstuffs and Provisions

CHICAGO-Demoralization at Liver pool and fine harvest weather gave the bears in wheat an inning to-day. July left off 1%0 down and September declined %c. Corn lost %@ 4c and oats

closed 1%c lower. Provisions also show declines, pork 5c, lard 15c, ribs 2%c. declines, pork 5c, lard 15c, ribs 2½c.
Nearly everything was against the price of wheat at the opening. The most depressing feature was the sharp decline and apparent demoralization which prevailed in Liverpool. That market eeemed wholly indifferent to our advance yesterday and July there was equal to 4½c lower than the close last night. The weather was too fair and favorable throughout the winter wheat belt, in marked contrast with the conditions which prevailed yesterday. This improvement in itself was a weak factor and when the slump in Liverpool was added the bearish sentiment became and when the stump in Liverpool was added the bearish sentiment became irresistible. Much of the long stuff taken on during the prevalence of the buil sentiment yesterday was fluidated and there was active selling for the short account and hammering of the market by professional bears. July, which closed at 73c last night, sold down to 71c during the first half of the certifical. to 71c during the first half of the session and September showed a loss of 14c selling at 65%c. Prices rallied somewhat on reports from various sections of the country and more especially from Kansas, reiterating yesterday's ad-vances about the sudden deterioration of the crop prospects. Lower closing Liverpool cables caused another sag in values and the market was heavy at a slight improvement on the lowest price of the day until Bradstreet's report of the change of the week in the world's visible was received. That gave a decrease in all positions of-10,556,000 bushels and caused a slight rally. But the advance merely served the purpose of the bears who had come to the conclusion that all the crop damage that had been heard of would still leave more than enough wheat for all requirements, and constantly extended the glad hand to the buyers on Bradstreet's statement and accommodated them with all the wheat they wanted for future delivery. Prices fell off one cent, but recovered some of the loss before the close. Chicago received nine cars against twentynine last year. Minneapolis and Duluth received 65 cars compared with 337 the year before. The Atlantic port clearances of wheat and flour were equal to about 300,000 bushels. July opened 1½0 20 lower at 71071½c, rose to 71½c, fell off to 71c, then rose to 71½c bid, the closing price. September began ¾01½c down at 664%c6%c, declined to 65½c, rallied to 65½c, then sold down to 66%c at the close. of the crop prospects. Lower closing Liverpool cables caused another sag in

to 65½c, then sold down to 66½c at the close.
Liquidation in July byprominent longs and the break in wheat started corn weak. Later some of the early lors was recovered on good buying by shorts. July opened ¼@%c lower at 31½@31¼c, declined to 35%c, then firmed up to 31c, the closing.

The heavy selling by July longs caused a break of 1¾c in oats. There was a partial recovery on good buying by shorts and scalpers. July started ¾c lower at 21¾c, sold off tq 20%c, then ralled to 20%c bil at the close.

Heavy hog recelpts and two mere cases of yellow fever in Mississippl were the apparent cause for the weakness in provisions. July pock opened 7½c lower at \$3.4%, advanced to \$5 60, the need aff to \$9.47½, the close. July lard started 2½c down at \$5.52% and declined to \$5.40, the resting figure.

July ribs began 5c off at \$5.32½, rose to \$5.40, then weakned to \$5.35 at the close.

Wool.

BOSTON—Sales in the wool market show a fair average this week. The market was steady and dealers were not disposed to push sales except at prevailing market prices. The movement in washed fleeces is slow. For XX and above the price is about 29c, while the best lines of delaines and No. 1 fleeces call for thirty cents. Australian wools are held firm, but the general business is slow. Following are the quotations for the leading descriptions: Ohio and Pennsylvania fleeces X and above 25% 26c; XX and XX above 29% 29c; delaine 30c; No. 1 combing 30c; No. 2 combing 29c. NEW YORK-Wool dull.

Metala.

NEW YORK-Business in the metal market hangs fire and quotations in some instances are entirely nominal, Lead alone shows any considerable amount of strength. At the close the metal exchange calls pig Iron warrants dull and unchanged with \$6 50 bld and dull and unchanged with \$6.50 bid and \$6.55 asked. Lake copper dull and easy with \$1.70 bid and \$11 87½ asked. Tin dull with \$15.15 bid and \$15.25 asked. Spelter nominal with \$5.00 bid and \$5.25 asked. Lead quiet but firm at \$3.25 bid and \$4.00 asked. The firm fixing the settling price for miners and smelters quotes lend at \$3 75. Petroleum.

OIL CITY—Credit balances 92c; certificates opened at 99c bid for cash; closed at 91½c bid for cash; sales 6,000 barrels at 92c; 2000 barrels at 91½c; 2,000 barrels at 91½c; 2,000 barrels; shipments 86,377 barrels; runs 96,919 barrels. Dry Goods.

NEW YORK—There is no change in the dry goods situation to-day. The market for printed goods is quite lively, Fall goods continue to meet with buyers B. & O. Sunday Exentsions on Fourth
